The competition director *may* consider allowing the vessel to re-participate after coming ashore due to exceptional circumstances.

If either the skipper or any crew member breaks these rules, the whole team will be disqualified from the competition by the competition director, whose decision will be final.

The fishing rules will be governed by the competition officials listed below who will also be responsible for overseeing the weighing and recording of valid catches as well as the boat inspection points.

Support vessels will be operating in the area with competitions officials on board to verify that no vessels are breaking the rules; in addition the forum will have aerial coverage to take photographs of the event including possibly having a competition official on board.

Any vessel caught cheating or breaking the rules will be disqualified immediately.
